

Appendix A

Relationships in Semicolon Groups

Seven different relationships are labeled here. In the table they are represented in short as follows:

1. sy: synonymy
2. hy: hypernymy/hyponymy
3. co: coordinate terms / near synonymy
4. ca: causation or actor
5. me: meronymy
6. an: antonymy
7. ??: unknown / no obvious relationship

“ca” is a category that was used when there is an *actor - action* relationship, or where one object/action must occur before the other one can.
