

295 Which three of the six assertion laws (Subsection 11.3.12) can be turned around, switching the problem and the solution?

After trying the question, scroll down to the solution.

§

$$\begin{aligned} A \wedge (P \cdot Q) &\Rightarrow A \wedge P \cdot Q \\ (P \cdot Q) \wedge A' &\Rightarrow P \cdot Q \wedge A' \\ P \cdot A \wedge Q &\Rightarrow P \wedge A' \cdot Q \end{aligned}$$
